

Shaft Lok™ Dimensions (Inches)

Shaft Lok™ requires "empty propeller shaft"; Mod I 1.620" and Mod II 2.062". If this space is not available, ask about the **Coupling Adapter Series**—it replaces the aft coupling half. Send coupling bolt, circle and shaft diameters.

Larger units manufactured to order.

Shaft Lok™ Dimensions (Inches) and Weights

UNIT SERIES	MAXIMUM PROPELLER SHAFT DIAMETER (BORE)	WIDTH A	ADJUSTMENT SCREW B	C	DIAMETER D	HEIGHT M	SET SCREW DIAMETER X	LBS WEIGHT INCLUDING 2 FOOT CABLE
